

Weight Limitations and Overage Charges

Typical construction and household trash weighs 100 to 300 pounds per cubic yard. Sam's roll-offs allow up to 500 pounds per yard, after which excess weight charges will apply. **Heavy material in TUBS must not go higher than 21" from the TUB floor.**

3 yard TUB limit	3000 lbs.
6 yard roll-off limit	3000 lbs.
9 yard roll-off limit	4500 lbs.
12 yard roll-off limit	6000 lbs.
16 yard roll-off limit	6000 lbs.

(NO DIRT, ROCK OR CONCRETE IN 16 YD.)

Weights exceeding the above limits will incur an additional charge of \$50.00 per ton on the excess (charged on a pro-rated basis). A scale ticket and invoice will be presented after disposal.

Containers loaded above the top edge are subject to additional charges. Excess items that create hazardous travel conditions, or prevent proper tarping, will be off-loaded from the container before it is removed from the customer's location.

Hazardous Materials

State and federal regulations require hazardous materials be disposed of only at properly equipped, licensed facilities.

Sam's Hauling does not accept any hazardous material.

Hazardous materials include, but are not limited to, the following:

- * **paints (oil or water base, & aerosol)**
- * **oils (motor, hydraulic or food)**
- * **fuels (gas, diesel, or propane)**
- * **batteries**
- * **poisons, insecticides, pesticides, herbicides**
- * **flourescent bulbs**
- * **asbestos**
- * **propane tanks (even if empty)**
- * **tires/wheels and tires**
- * **appliances with freon (ac units, refrigerators, freezers)**
- * **televisions & computers (including laptops, keyboards & mice)**
- * **electronics (dvd & vcr players, radios & video game consoles)**
- * **office equipment (printers, fax machines & phones)**

Hazardous materials discovered at dumping will be returned to the customer's location. Additionally, fines may be imposed by Sam's Hauling, the disposal facility, and/or regulatory agencies.
