

*Thank You for using a
Sam's Hauling
mini roll-off dumpster or TUB®*

Your container is automatically scheduled to be picked up on _____. Pick up may be made **any time after 7:30 am** on the scheduled day. You may request a specific time or early pick-up if desired. Time extensions are available for an extra charge and may be arranged by calling **303-984-7200**. **A time extension requested when the driver arrives for a scheduled pick up is charged at \$20.00/day.**

Please observe the following restrictions:

1. Absolutely **NO HAZARDOUS MATERIALS** (no paint, batteries, tires, pesticides, poisons, oil, fuels or **electronics**). **ANY** hazardous materials discovered at dumping will incur a **\$100.00 FINE**, and all materials in question will be returned to the customer's location.
2. Only **minimal amounts of dirt, concrete, rock, brick or asphalt** may be taken.
Weight restrictions prohibit more than **1 yd of concrete, rock, asphalt, dirt or plaster and lath**.
See EXCESS WEIGHT CHARGES on back of this form.
3. **No appliances containing freon** (no refrigerators, freezers or a/c units).
for assistance with units containing freon please call **Unwanted Appliances at 303-430-7142**.
4. **NO MACHINE LOADING** (ie. no bobcats, skidsters, backhoes, forklifts, etc.).
5. **DO NOT LOAD ABOVE THE TOP RIM OF THE CONTAINER**. Excess materials will be removed at the customer's expense.
6. **Use caution if operating the roll-off door**. Sam's Hauling assumes **NO LIABILITIES** for injuries sustained while in, around or loading containers.
7. **Keep children out of/away from the roll-off or TUB.**
8. **Do not block container on pick up day.**

Loading Tips

1. Load flat items (plywood, doors, paneling, etc.) and long items (posts, lumber, etc.) first, keeping long items against the sides. Stand 4 X 8 plywood along sidewalls in 6yd units.
2. Break up pieces such as cabinets, shelves, tables and furniture whenever possible.
3. Flatten cardboard boxes (empty contents into voids to maximize utility).
4. Attempt to fill gaps before they are covered over.
5. Cut limbs and branches to shorter lengths (3-5 ft.). Trim bushy materials so they will stack relatively flat.
